Subject: Goulburn River Solar Farm – Secretary's Discretion under B7 of SSD-33964533

Dear Ms Kramer

I refer to your submission dated 28 March 2025, requesting Planning Secretary's agreement to allow on-site construction works prior to completion of an upgrade at the intersection of Ringwood Road and Golden Highway, required under condition B7 of the above-mentioned consent.

To safely allow on-site construction works to occur prior to completion of the upgrade, you propose:

- Restricting daily traffic volumes associated with on-site construction works to 10 heavy and 20 light vehicles per day.
- Commence construction of the intersection upgrade and ensure traffic passing through the intersection are under traffic control conditions.

In considering the request, the Department has carefully reviewed the information provided, including Upper Hunter Shire Council and Transport for NSW's (TfNSW) conditional support of the proposal.

As nominee of the Planning Secretary, in accordance with condition B7 of Part B, I approve commencement of on-site construction works prior to completion of the Ringwood Road/Golden Highway intersection upgrade. This approval is given on the basis that works, and in particular, traffic types, volumes, controls and movements, are in accordance with the commitments and TfNSW requirements stated in your letter of 28 March 2025.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Andrew McIntyre on (02) 8229 2959.

Yours sincerely

Iwan Davies
Director
Energy Assessments

As nominee of the Planning Secretary
